DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 20 are allowed.

2. The following is an examiner's statement of reasons for allowance:

Applicant by incorporating the allowable subject matter as indicated in the last Office Action, dated 1/11/2008 in the independent claims 1, 11 and 20, place the application in allowable condition. The prior art of the record fails to anticipate or fairly suggest a device comprising; a decode processor configured to (i) divide a first picture from a video signal into a plurality of picture segments, (ii) divide each one of the picture segments into a plurality of tiles and (iii) generate a list associating each one of the tiles to a corresponding one page of a plurality of pages in a corresponding one bank of a plurality of banks in a first memory such that each one of the picture segments has (a) at least a first one of the tiles associated with a first of the banks and (b) at least a second one of the tiles associated with a second of the banks; a direct memory access unit configured to store the first picture in the first memory according to the list; and a memory manager configured to (i) generate a map allocating space in the first memory to store the first picture and (ii) transfer an identification value identifying the map to the decode processor, wherein (a) the decode processor is further configured to transfer the identification value to the direct memory access unit and (b) the direct memory access unit is further configured to use the

identification value to locate the map, as recited in independent claim 1, and similar limitations recited in independent claims 11 and 20.

Claims 2 – 10, 12 – 19 are dependent to allowable independent claims 1 and 11, therefore as a whole consider allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
